Randy Caballero

Web Developer

Houston, TX 77085

caballerorandy7@gmail.com

+1 832 546 5983

Hello, I am Randy Caballero graduated in Computer Engineering at the Faculty of Computer Science of the University of Camagüey, Cuba. In my university stage I was able to develop skills such as communication and leadership, participating in different projects within the faculty. These projects also helped me to develop my ability to solve problems and evaluate different solutions if necessary. I am passionate about software development, specifically web development, as it has a great impact on our lives and will continue to do so in the future. My goal is to develop my professional career as a Software Engineer within a company that allows me to apply all the knowledge acquired during my time as a student and in different courses and online bootcamps. To keep growing professionally and personally to achieve the best possible results is my top priority. If you want to know more about me, you can connect with me through LikedIn, or you can visit my personal portfolio https://rcweb.dev and send me a message.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Web Developer
